85.30.050 PORT DUES. (a) Port Dues. Every vessel carrying passengers for compensation and utilizing the port facilities, and not otherwise exempted by subsection (e) of this section, shall be assessed and pay port dues for each
port visit. The port dues shall be in addition to other port facility use fees and charges. Port dues shall be calculated on the basis of registered net tonnage of the vessel as follows:

\[
\text{Base rate per registered net ton } \times \text{registered net tonnage} = \text{Port Dues per vessel per use of port facilities.}
\]

(b) Rate Schedule. The base rate per registered net ton shall be in accordance with the following schedule:

- March 23 - December 31, 1990.........................$0.05
- January 1 - December 31, 1991........................$0.15
- January 1 - December 31, 1992........................$0.17
- January 1 - December 31, 1993.........................$0.21
- January 1 - December 31, 1994.........................$0.23
- January 1, 1995 - December 31, 2001.................$0.25

The base rates may be adjusted to reflect the actual costs for the final project design.

(c) Purpose of 1990 Port Dues. Port dues of $0.05 per registered net ton will be assessed and collected in 1990. In furtherance of joint cooperation, the Northwest Cruise Ship Association will have access to up to $50,000 of the port dues collected in 1990 to select and retain experts to review the project scope, designs, and cost estimates.

(d) Change in Base Rate or Fee. The port dues base rate may be changed by resolution in the same manner as other port fees and charges as set forth in Section 85.30.040, provided that the port dues base rate shall not exceed $0.25 per registered net ton unless otherwise provided by ordinance. In changing the base rate, the factors to be considered shall be the amount of revenue necessary to: retire outstanding bonded indebtedness for port facilities; perform scheduled port facility improvements, major maintenance, and land acquisition; and maintain a fund balance in the Port Development and Major Maintenance Fund sufficient to offset reasonable fluctuations in annual cruise ship visits without an additional change to the base rate.

(e) Exemptions. The port dues shall not apply to:

1. Vessels having accommodations for twelve or fewer passengers;

2. Vessels traveling only between the city and borough and points within 100 miles of the city and borough port facilities;
(3) Noncommercial vessels or vessels owned and operated by the State of Alaska, the United States government, or a foreign government.

(f) Administration and Disposition of Port Dues. The port dues shall be administered by the harbormaster in the same manner as other port fees and charges. The port dues shall be paid by the owner or agent of the vessel to the city and borough within forty-five days from the invoice date. The proceeds of the port dues shall be placed in the Port Development and Major Maintenance Fund. The proceeds of the fund shall be used for projects which directly benefit the operations of the port and which primarily serve the cruise ship industry, including:

(1) Docking or lightering of cruise ships;

(2) Off-loading of passengers and movement of passengers along the waterfront;

(3) Passenger staging facilities on upland areas adjacent to port facilities, including facilities to transfer passengers to other activities, Marine Park, waterfront parks, and waterfront tourist facilities;

(4) Acquisition of land for the above facilities;

(5) Beautification and enhancement of the above facilities.

(g) Expiration of Section. The provisions of this Section 85.30.050 will expire on January 1, 2002, and thereafter no port dues may be collected unless this section is extended by ordinance before that date.

85.30.060 PORT DEVELOPMENT PLAN. The manager shall present a City and Borough of Juneau Port Development Plan to the assembly no later than May 7, 1990. The plan shall set forth the port related projects, schedules, the preliminary estimated costs of the projects, and funding sources. The plan shall be adopted by ordinance and may be revised from time to time by the assembly by ordinance. Prior to the revision of the plan, those cruise ship companies that operated in the city and borough at any time during the previous twelve months, and those cruise ship companies that are scheduled to operate in the city and borough during the next twelve months, shall be given a detailed written presentation on the proposed revisions to the plan and notice of all public hearings on the plan. Following a minimum
thirty-day review period, a joint or separate public hearing or hearings on the proposed revisions to the port development plan shall be held by the harbor board and the planning commission. The purpose of the committee shall be to advise the harbor board on the implementation of the port development plan and to annually review all port rates, fees, and charges. The committee will be provided an opportunity to initiate, review, and comment on proposed revisions to the plan, specific design and acquisition plans prior to implementation, and to recommend methods to enhance projects or reduce costs through design efficiencies or acceptable alternatives. The committee shall undertake an annual review and evaluation of all port rates, fees, and charges, including but not limited to port dues, and shall make recommendations to the harbor board on the sufficiency of the rates, fees and charges to cover the payment of bonded indebtedness for port facilities and other port project expenses, and shall present its recommendations to the harbor board prior to January 1 of each year. The purpose of this review is to ensure that port rates, fees, and charges are equitable, taking into consideration total net tonnage increases or decreases, passenger load increases or decreases, and other relevant factors.
