✓ Dignify others
✓ Be open and honest
✓ Everyone participates
✓ All perspectives are of value
✓ One conversation at a time
✓ Focus on ideas and issues, not individuals and behaviors
✓ Seek to understand and then to be understood
✓ Other?
Consensus means everyone agrees, right? NO, it means ….

- I had the opportunity to share my opinions
- I agree that the decision was arrived at fairly and openly
- I will support the decision (even if it is not my preferred choice)
The Lemon Creek Area Plan strives to encourage future development that will protect its cultural and natural resources, provide for quality housing, walkable, bikeable, safe neighborhoods, while sustaining its position as an attractive area for local businesses—Juneau’s Midtown.

The community of Juneau will use the plan to pursue ongoing solutions to enhance the livability and functionality of the area, while preserving, promoting, and enhancing positive features and economic growth for future generations.

### GOAL 1: CREATE AND SUSTAIN VIABLE, SAFE AND DIVERSE NEIGHBORHOODS THAT WORK TOGETHER

**Action:** Maximize compatibility between residential and non-residential uses by ensuring appropriate buffers and distance

**Action:** Recognize that the composition of “neighborhoods” may be residential, nonresidential or both, and require buffers and transitional uses that knit neighborhoods together

**Action:** Preserve, protect and enhance neighborhood aesthetics and natural and historic resources, including the Switzer Creek viewshed

**Action:** Consolidate the lots that make up the Switzer Creek area between the Pinewood Subdivision and Gruening Park and permanently protect for open space and recreation

**Action:** Consider rezoning Grants Plaza from Industrial to General Commercial or Light Commercial

**Action:** Encourage the formation of neighborhood organizations to increase involvement of residents, owners and businesses that focus on creating healthy and livable neighborhoods
### GOAL 2: DESIGNATE BUILDABLE LAND, PARTICULARLY ALONG TRANSIT CORRIDORS, FOR RESIDENTIAL USE AT DENSITIES THAT CAN PRODUCE HOUSING AFFORDABLE TO ALL ECONOMIC GROUPS
