As the youngest candidate for assembly, I look at Juneau's future in terms of decades. With careful planning and coordination, we can prepare for the challenges Juneau faces; record numbers of cruise visitors, food security, and changes in our environment.

When it comes to public safety, All Juneauites deserve to feel safe in their homes and neighborhoods. We can achieve this by fully staffing our police and fire departments while simultaneously addressing the opioid epidemic and social challenges that face many in our community.

Finally, I hope to see livable Juneau for everybody. That means access to affordable childcare, a vibrant economy that supports entrepreneurs, our senior community and affordable housing. Keeping young families in our communities and attracting other families to move to Juneau is paramount to Juneau's sustainable future.
